1

SPECIFICATIONS

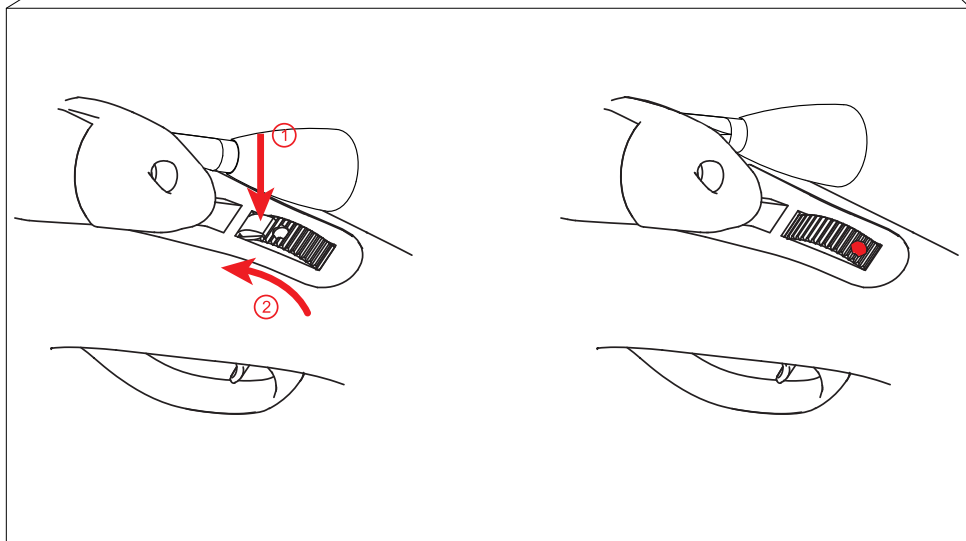

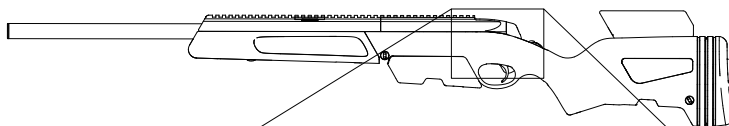

WEIGHT (without mag)	3.1 kg
LENGTH	1090 mm
BARREL LENGTH	450 mm
BARRLE CALIBER	6.03 mm
HOP UP ADJUSTMENT	TDC
MAGAZINE	32 rds
COLOR	BLACK
PELLET TYPE	6 mm BB
INITIAL SPEED (Normal)	426 FPS (130 m/s) with M120

2

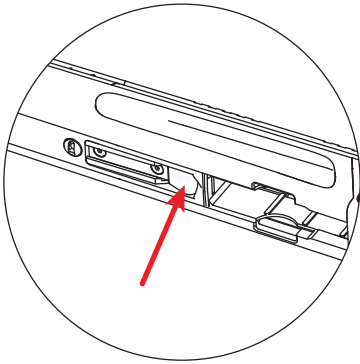

SAFETY

Press the white button and roll forward to release the safety. It is armed (firing ready) if the red mark appears.

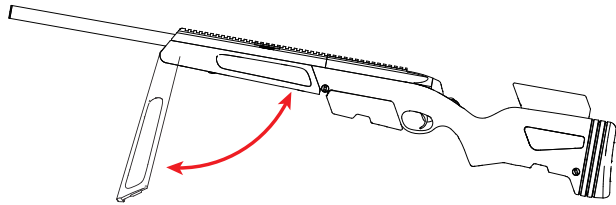

3

BI-POD

Push on the bipod release switch to drop it down. Simply push it back up to retract.

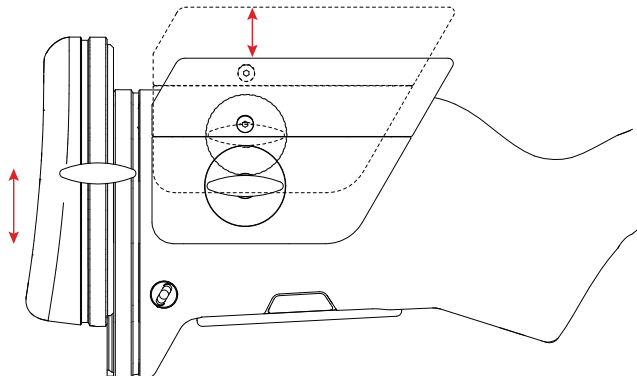

**The bipod is a moving part so repeated use typically causes wear.*

4

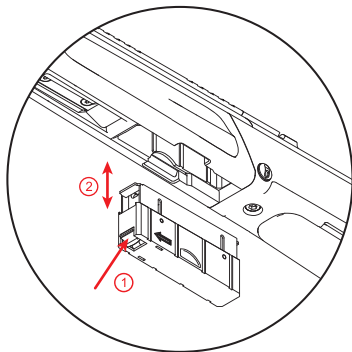

BUTTSTOCK & CHEEK REST ADJUSTMENT

Adjust the buttstock and cheek rest position by tightening/loosening the adjustable screw at the right side of your rifle.

5

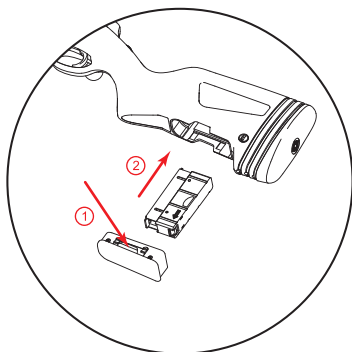

MAGAZINE INSTALLATION

Main magazine

Simply snap the magazine into place as necessary. Press the magazine release button to remove it.

**Non-compatible with MOD24 standard magazine, which can only be used by changing the magazine inner case.*

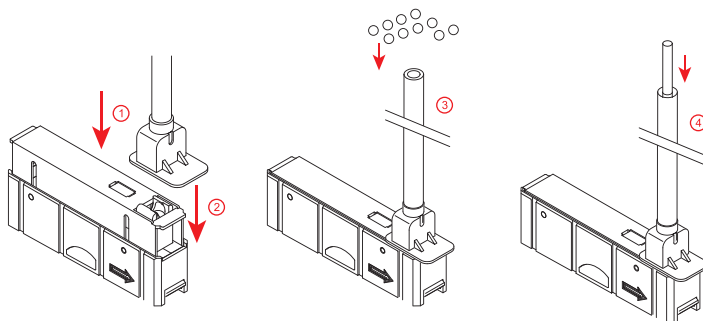

Spare magazine

Press the 2 side buttons to remove the dust cover. Insert the spare magazine vertically into the buttstock.

6

REFILLING BBS

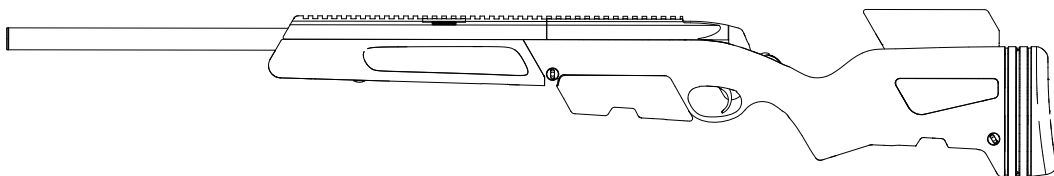

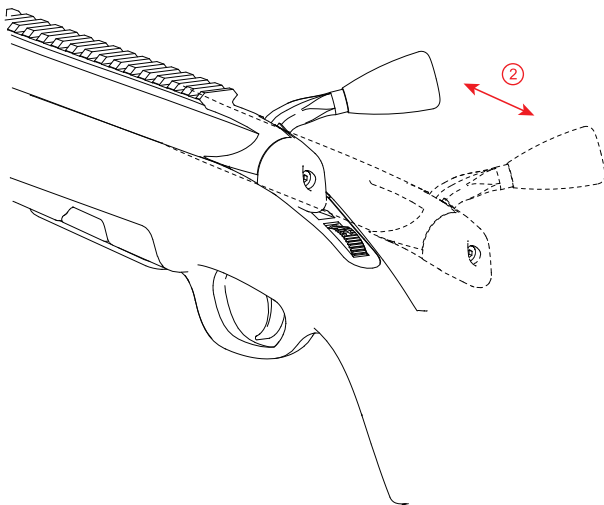

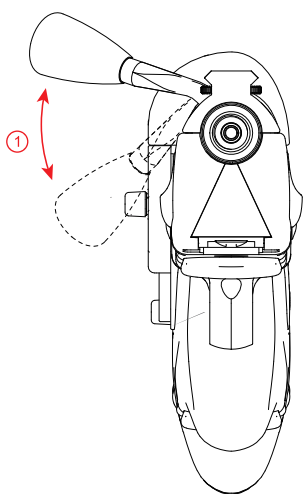

Press on the magazine to let magazine feeding lip pop out (1). Aim the BB filler to the feed lip on the magazine (2). Start refilling BBs into the magazine (3). Push BBs in place with the pusher or rod (4).

7

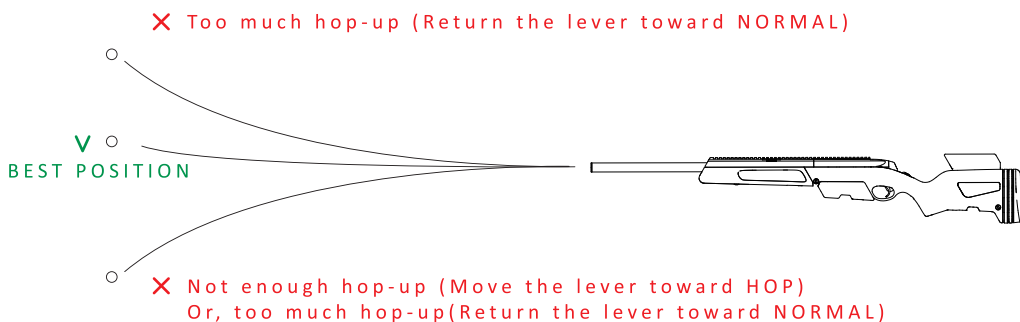

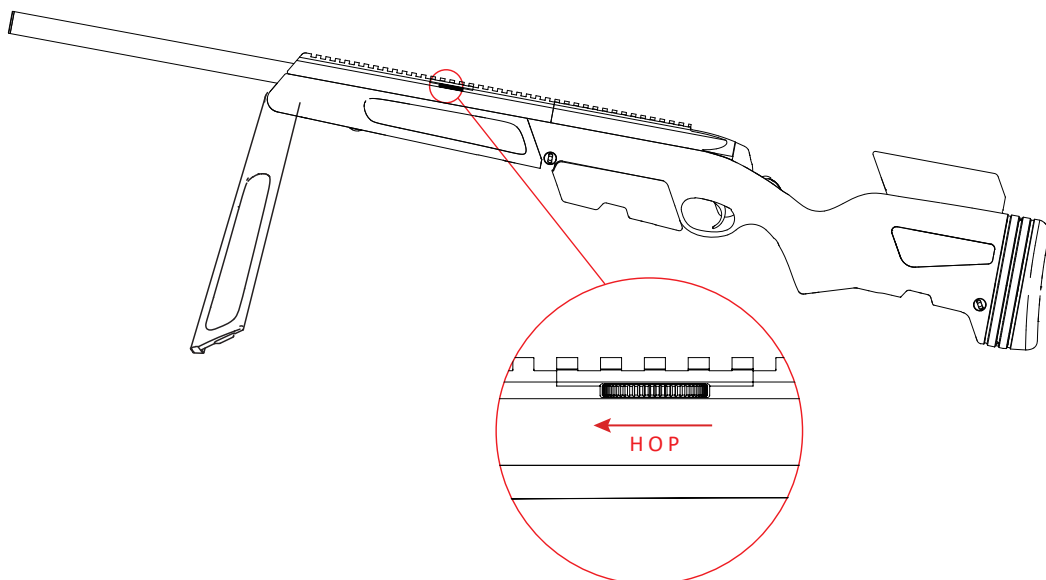

READY TO FIRE

Pull up on the charging handle and then pull all the way back to load .
With the action in place, make sure the charging handle is secure in position before firing. (Not available on Safety)

8 HOP UP ADJUSTMENT

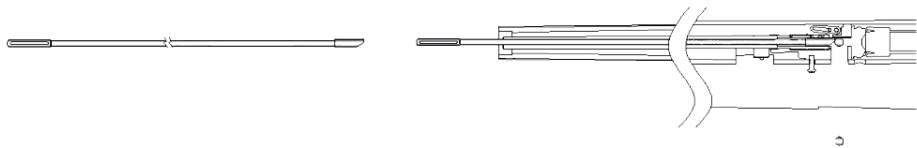

The TDC adjustable wheel with positive feedback gives you 120+ positions for a more precise shooting experience.
Clockwise to increase the hop-up.
Counterclockwise to decrease the hop-up .

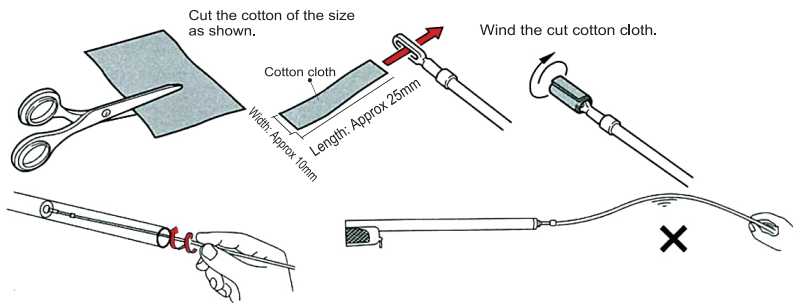

9

MAINTENANCE

Drop a few drops of silicone oil from the pellet entrance, then fire pullets equivalent to 1 or 2 maganzine. Use the cleaning rod(with cotton) as shown below, to remove the excess oil to complete the miantenance.

Always begin the maintenance by returning the hop up adjustment lever to the Normal (HOP off) position. The inside chamber is a precision component, it can be damaged easily. Be careful during maintenance. Never use any used pellets.

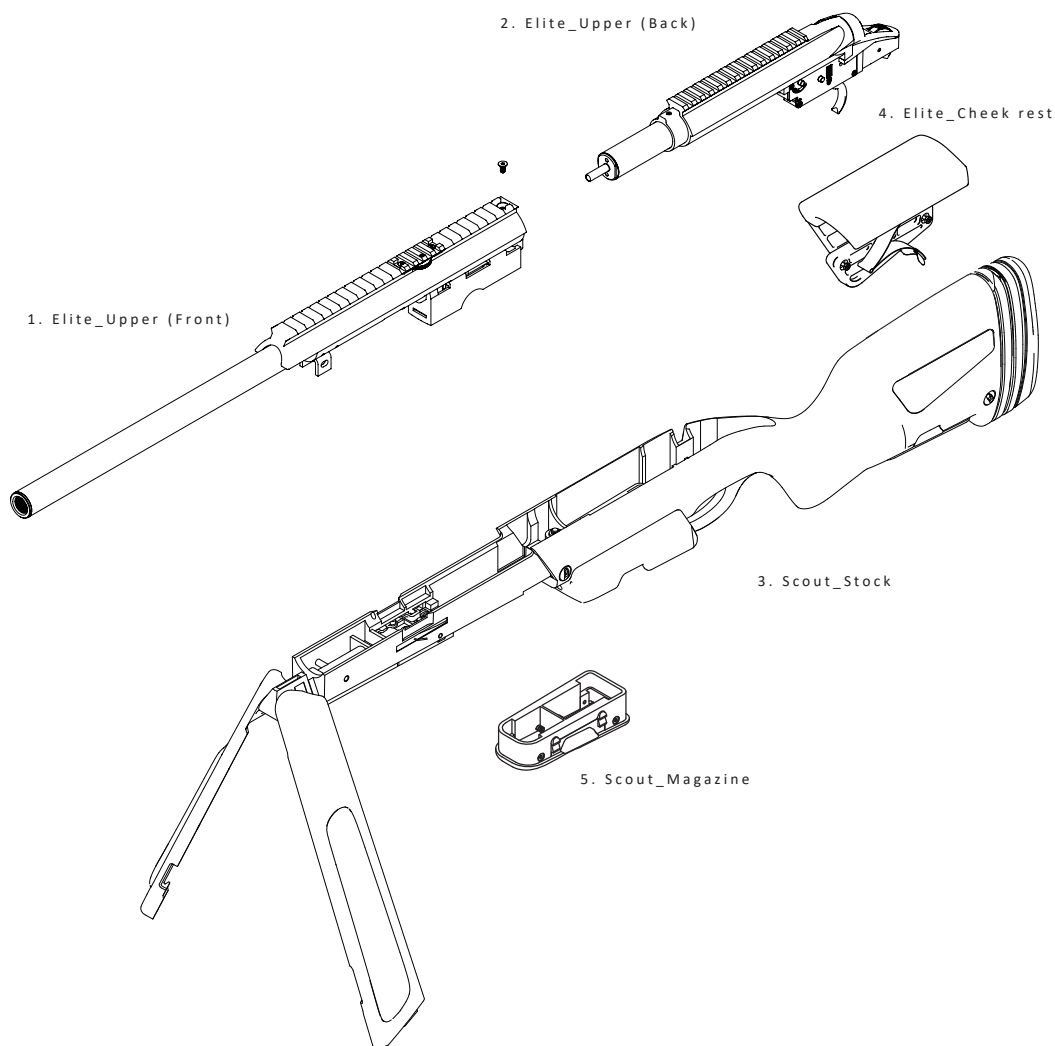

How to use a cleaning rod

Cut a cotton cloth to the size as shown and insert one end into the hole in the rod.(Adjust the length of the cloth for smooth entry into the barrel.)

10

Q&A

Is it a VSR10?	It is not VSR10 compatible.
Is it a MOD24 system?	Yes, but with the Bore-Up cylinder system.
Is it interchangeable with the MOD24 magazine?	Its Magazine inner case does not fit.
Are the parts interchangeable with that on the MOD24?	It is compatible with trigger unit, hop up chamber and inner barrel.
Hop up bucking recommendation?	Predator hop up bucking.
How to fix stuck BBs?	Pull back the bolt to full stop. Then dislodge BBs with a cleaning rod.
How to fix poor trajectory?	Clean the barrel, check the airtight and then adjust the hop up as necessary.
How to fix a broken airsoft gun?	Hand it over to the nearest distributor or tech. DO NOT DIY to avoid warranty problems.
Can I switch the Elite upper to my airsoft Steyr Scout?	Yes, you can.
